

SAVE ENERGY

IN NEW PRAGUE

Electric Water Heating

New Prague Utilities water heating program uses electricity efficiently to save you money. This program offers three high-efficiency storage water heater options and the use of electricity during non-peak usage times.

How It Works

With a storage water heater from NPU, your water heater will heat from 10:00 PM until 8:00 AM Monday thru Friday. Currently weekends and holidays are control-free.

HTP Water Heater

Metered Storage Rate

Winter .0710/kWh
(October - May)

Summer .0839/kWh
(June, July, August & September)

No Summer Rate Increase

Unmetered Controlled

\$5 bill credit per month

ENERGY SAVING TIP

Heating the water in a washer uses 90% of the energy used to wash clothes. According to Energy Star, by switching to cold water the average household can save between \$30-\$40 annually.
